Massachusetts Judge Orders His Ac quittal On The Charge.

Plymouth, Mass. Oct. 19-A verdict of acquittal of Thomas W. Lawson, the Boston financier, on a charge of dis-posing of property by a lotters was ordered by Judge Joseph F. Quinn in the superior court here today. The court took the case from the jury at the conclusion of the testimony for the prosecution, without hearing any evidence for the defense. This reverses the verdict of the district court, which found Mr. Lawson guilty and fined him \$100

A strict censorship wa established today on all transprovincial messages which found Mr. Lawson guilty and fined him \$100.

The case was instituted on complaint of the Watch and Ward society of Boston, after Mr. Lawson had presented a horse and carriage to the holder of a numbered ticket of admission to the annual fair of the Marshfield Fair association of which he is president. The court ruled that no evidence had been introduced to show that Mr. Lawson had been connected with a lottery. The prosecution claimed that the equipage offered to the holder of the lucky ticket was merely a pretext to increase the sale of admission tickets.

The court said that the evidence showed that the tickets instead of being sold by the Boston capitalist, were regarding military movements, and also on all code messages, except consular and legation despatches. Even the legations are deprived of news by the interruption of the wires. missionary circles in London. Dr. Somerville, a member of the London mission at Wu-Chang, who is now here,

showed that the tickets instead of be-ing sold by the Boston capitalist, were sold by the ticket seller at the fair grounds. Judge Quinn quoted the principle of law that in the sale of tickets to the fair no property was sold, inasmuch as a ticket, instead of being property, is merely a license to exter a certain place and may be re-voked by the seller for any good cause.
